# FAQ

**Does this go through my personal LinkedIn profile page or my business page?**
This will go through your personal LinkedIn profile. Person-to-person contact has a higher conversion rate than company-to-person contact.

**Do I need to have a paid account for LinkedIn?**
Yes, you need a Sales Navigator account because of its superior search capabilities for target markets.

**How many invites are sent out per month?**
Our goal is to send between 1200 and 1500 invites per month and aim for a 25% acceptance rate. Our objective, on average, is to get you 400+ laser-targeted, new connections from the demographic you choose per month.

**Do you help me update my profile?**
Yes, a high converting profile analysis and consultation is included at no additional cost. 80% of connections look at your profile first so it is very important to make your profile amazing before launching.

**Will my price ever increase?**
We increase our prices periodically due to demand and additional added features. However, your price will not go up during your initial agreement term.
